In re Application of	:	
Tadashi Goino	:	
Application No. 09/723,228	:	DECISION ON PETITIONS
Filed: November 27, 2000	:	
Attorney Docket No. 2842.01US01	:	

This is a decision on the "PETITION TO EXPUNGE UNINTENTIONALLY SUBMITTED INFORMATION", filed June 13, 2006.

The petition to expedite is **DISMISSED**.

Petitioner is given TWO MONTHS from the mailing date of this decision to reply, correcting the below-noted deficiencies. Any reply should be entitled "Request for Reconsideration of Petition to Expunge Unintentionally Submitted Information" and should only address the deficiencies noted below. Any extensions of time will be governed by 37 CFR 1.136(a).

As set forth in MPEP 724.05, a petition to expunge information unintentionally submitted in an application (other than information forming part of the original disclosure) may be filed under 37 CFR 1.59(b), provided that:

- (A) the Office can effect such return prior to the issuance of any patent on the application in issue;

(B) it is stated that the information submitted was unintentionally submitted and the failure to obtain its return would cause irreparable harm to the party who submitted the information or to the party in interest on whose behalf the information was submitted;

(C) the information has not otherwise been made public;  
(D) there is a commitment on the part of the petitioner to retain such information for the period of any patent with regard to which such information is submitted;

(E) it is established to the satisfaction of the Director that the information to be returned is not material information under 37 CFR 1.56; and

(F) the petition fee as set forth in 37 CFR 1.17(g) is included.

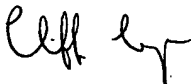

Here, the instant petition has not included the \$200 petition fee as set forth in 37 CFR 1.17(g). Rather, the petition only included an authorization to charge the petition fee set forth in 37 CFR 1.17(h) - \$130. No authorization to charge any additional fees was included. Accordingly on renewed petition, petitioner must submit the \$200 petition fee as set forth in 37 CFR 1.17(g).
